MORE THAN JUST STORAGE - THE POWER BEHIND OUR WAREHOUSE

The advantages

Top-tier security concept

Strict access controls, alarm systems, and 24/7 camera surveillance. We don't compromise on safety.

Inhouse Customs

Faster clearance, fewer delays. Everything handled under one roof, with full control.

Secured yard and parking

Your cargo stays protected — inside and out.

Certified and future-proof

BREEAM "Very Good", bonded warehouse with AEO license and an impressive 14-meter clear height. Built to perform.

Direct connection to the A16

Fast connection to major road networks. No delays, just streamlined efficiency.

ESFR sprinkler system

High-end, automated fire protection to keep your goods safe at all times.

Smart warehouse management

Powered by SFM, KPI analysis, and regular quality review meetings to ensure peak performance.

TAPA A ready

Compliant with the highest security standards in logistics — ready to handle your most valuable freight.
